

QUILTING MATTERS

developing creativity through quiltmaking

UFO+SEW (Un Finished Objects)

UFO sessions provide dedicated learning and stitching time for you to progress your *projects*... and incidental learning plus inspiration via others' projects.

Spring clean your cupboards and spend time quietly or maniacally stitching,

seeking project help, and generally getting current projects back on track... they all need to be finished to free you up for the next project.

You may like to discuss your project before the class... enabling you to have the correct resources with you on the day. It may also give me the opportunity to study up on your project if you are at a sticky point. Please call or email me to discuss.

I'll be on hand to give you assistance. The design walls and sandwiching tables are waiting.

If you've momentarily forgotten a technique or skill we can revisit until you feel comfortable enough to move on.

- Bring all you need to work on your project
- BYO sewing machine and rotary cutter
- Sandwiching tables must be pre-booked

Rotary tools are supplied for use in class
Haberdashery, wadding and rotary tools are FOR SALE

ufo eve (7-10pm) @ \$35

ufo day (10am-5pm) @ \$75

(Payment upon booking)
