

QUILTING MATTERS

developing creativity through quiltmaking

CUT LOOSE

Join me for a crooked ride using Jan Mullen's CUT LOOSE workbook.

Learn:

- to make crooked blocks
- simple stitching without the worry of 1/4" seams
- unusual and innovative techniques
- no need for templates
- multiple block sizes and setting freedom
- simple cutting from rectangles
- every block is unique!

Make funky, contemporary looking quilts!

Over *five classes* we'll break the rules used when making traditional and regular blocks. We will make *asymmetrical blocks* with crooked components using the math for CUT LOOSE style cutting and piecing.

week 1 *mainly rectangles*
week 2 *mainly triangles*
week 3 *mainly logs*
week 4 *mainly curves*
week 5 *setting day - use the design board to organise/piece your unique quilt top*

BYO fabric, rotary cutter and sewing machine
Rotary tools are supplied for use in class
Haberdashery, wadding and rotary tools are for sale

Five x three-hour classes @ \$50 each
